TSX.V: PAU

1. Nature and Continuance of Operations

Papuan Precious Metals Corp. (the "Company") is a company incorporated under the Business Corporation Act of British Columbia, Canada. The registered office of the Company is 700-595 Howe Street, Vancouver, British Columbia, V6C 2T5. The Principal address and records office of the Company is 700-1620 Dickson Ave., Kelowna, British Columbia, V1Y 9Y2. The Company's shares are publically listed on the TSX Venture exchange under the symbol "PAU". Since January 2014, the Company no longer trades on the OTCQX. The Company is engaged in the acquisition, exploration and development of exploration and evaluation assets (mineral properties) in Papua New Guinea ("PNG"). The Company is considered to be in the exploration stage and to date has not generated significant revenues from operations. The Company has not yet determined whether its exploration and evaluation assets contain economically viable ore reserves and there is no guarantee that mineral deposits will be discovered in the future. The recoverability of the amounts shown for exploration and evaluation assets is dependent upon proving the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves and upon future profitable production and/or proceeds from the disposition thereof.

The Company has no significant source of revenue and has significant cash requirements to meet its administrative overhead and to maintain its mineral property interests. Management has determined that the Company will be able to continue as a going concern for the foreseeable future and realize its assets and discharge its liabilities and commitments in the normal course of business, and therefore, these interim consolidated financial statements have been prepared on a going concern basis and do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern. The Company's ability to continue as a going concern is dependent on its ability to secure equity, debt or joint venture financing and generate profitable future operations.

The interim consolidated financial statements for the three and nine months ended March 31, 2014 and 2013 were approved and authorized for issuance by the Board of Directors on April 21, 2014. These amended financial statements include pages 2, 3 and 4 that were excluded on the interim consolidated financial statements filed April 21, 2014.

2. Basis of Presentation

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34 – *Interim Financial Reporting* ("IAS-34") as issued by the International Accounting Standards Board ("IASB") and should be read in conjunction with the Company's audited consolidated financial statements for the year ended June 30, 2013. The annual statements include information necessary or useful to understanding the Company's business and financial statement presentation. In particular, the Company's significant accounting policies and the use of judgements and estimates are presented in Note 3 and note 5 of the annual statements. These policies, judgements and estimates have been consistently applied in the preparation of these condensed interim consolidated financial statements. See also note 3 below.

These condensed interim consolidated financial statements have been prepared in Canadian dollars on a historical cost basis and unless otherwise noted all figures are in Canadian dollars. These statements include the 100% wholly owned subsidiary Papuan Precious Metals Ltd., located in Papua New Guinea.

3. New Standards, Amendments and Interpretations

The IASB issued the following pronouncements that are effective for years beginning January 1, 2013 or later. These new accounting policies were adopted by the Company on July 1, 2013 and have had no impact on the Company's financial position and results of operation.

IAS 1 – *Presentation of Financial Statements*

IAS 24 – *Related Parties Disclosures*

IFRS 7 - *Financial Instruments: Disclosures*

IFRS 10 – *Consolidated Financial Statements*

IFRS 12 – *Disclosure of Interests in Other Entities*

IAS 12 – *Deferred Tax*

IAS 28 – *Investments in Associates*

IFRS 9 – *Financial Instruments*

IFRS 11 – *Joint Arrangements*

IFRS 13 – *Fair Value Measurement*

4. Amounts Receivable

All amounts receivable are current and due to their short-term maturities, the fair value of amounts receivable approximates their carrying value. The Company does not have any significant balances that are past due and has not made any allowance for doubtful accounts.

6. Exploration and Evaluation Assets (continued)

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims. The Company has investigated title to its exploration and evaluation assets and to the best of its knowledge titles to its properties are in good standing under the Mining Act 1992 of the Independent State of Papua New Guinea. The State of Papua New Guinea may elect at the time a "Special Mining Licence" is granted to acquire up to a 30% participating interest in mining projects on a fully contributing basis. The Special Mining Licence entitles the holder to commence mine construction. The New Hanover and Mt Suckling license renewals have been applied for but the Company has yet to receive official notification of the renewals. The Company has not received any indication that the licenses will not be renewed.

New Hanover

The Company owns a 100% interest in the New Hanover license located in the south-western portion of the island which is 100 km west of the New Ireland provincial capital of Kavieng. The project is comprised of two exploration licenses (EL 1566 New Hanover & ELA 1856 Lavongai) covering 594km² situated in the Lihir-Tabar mineralization belt. Through its ground exploration, aerial and ground IP surveys the company identified a highly prospective anomaly at the Kuliuta prospect. The company completed a 2,583m drilling program there in November, 2011. This drilling encountered a high level sub-volcanic stock containing trace native copper as stockworks, fracture fillings and disseminations, typical of a porphyry copper system. Narrow intervals of sulphide copper stockworks were also intersected. The Metewoi prospect, located 4km southeast of Kuliuta, covers approximately 8km² of quartz-alunite lithocap rock where significant gold and copper results from outcrop samples have identified the exploration potential for high-sulphidation epithermal gold and porphyry copper-gold mineralization. At the Rande'i prospect about 4km southwest of Kuliuta, an extensive area of previously undiscovered alterations with outcropping Au-Ag and base metal values has been defined.

Mt. Suckling

The Mt. Suckling prospect is situated at the eastern end of New Guinea's Central Range east of Port Moresby on the southwest flanks of Mt. Suckling in Northern Province. The Company during the year ended June 30, 2013, sold an undivided 90% interest in the Mt. Suckling tenement to Suckling Minerals Limited ("Suckling Minerals"), a company formed by a former director and the former Chief Operating Officer of the Company. The Company retains a 10% carried interest and a 2% Net Smelter Royalty ("NSR"). Under the terms of the sale agreement, Suckling Minerals and its directors surrendered 5,344,791 common shares of the Company valued at \$106,896 in exchange for the 90% interest. The resultant impairment loss on exploration and evaluation assets of \$4,457,913 was recognized in the prior year. The shares surrendered are held in an escrow agreement until final tenement transfer is approved by the Mining Resources Authority of PNG. Pending this approval, the escrow shares are subject to a cancellation agreement whereby 25% of the shares are cancelled every 6 months from January 29, 2013, the date of TSX-V approval. Suckling Minerals can purchase the Company's remaining 10% interest for \$4.7m and they also have the option to purchase the 2% NSR for \$2.0m.

7. Accounts Payable and Accrued Liabilities

Accounts payable are indebtedness incurred in the normal course of operations and are typically paid within 30 days. The accrued liabilities are non-interest bearing.

Due within the year	March 31, 2014	March 31, 2013
Accounts payable	\$ 76,178	\$ 19,153
Accrued liabilities	164,951	125,261
	\$ 241,129	\$ 144,413

Papuan Precious Metals Corp.

Notes to the Condensed Interim Consolidated Financial Statements
For the Three and Nine Months Ended March 31, 2014
(Unaudited - Expressed in Canadian Dollars)

8. Share Capital and Reserves

The Company is authorized to issue an unlimited number of common shares without par value.

(a) Share Issuance and Private Placement Financings

On December 11, 2013, 1,179,531 shares held in escrow have been returned to treasury and cancelled. On March 28, 2014, a further 1,207,031 shares held in escrow have been returned to treasury and cancelled. The remaining 2,958,229 escrow shares are to be cancelled according to the terms of the Suckling Minerals agreement.

There were no common share offerings nor any exercises of warrants or options during the nine months ended March 31, 2014.

(b) Stock Options and Warrants

The Company has a share-holder approved stock option plan which allows the Board of Directors to grant stock options to directors, officers, employees, contractors and consultants. The exercise price of each option is based on the market price of the Company's common stock at the date of grant less any applicable discount. The options can be granted for a maximum term of five years and vesting terms are determined by the Board of Directors at the time of any grant. See also Note 14 – Subsequent Events.

As at March 31, 2014, there were no warrants outstanding and stock options outstanding were:

Stock Options				
Date Issued	Number Outstanding	Exercise Price	Number Exercisable	Expiry Date
July 12, 2011	600,000	\$ 0.40	600,000	July 12, 2014
As at March 31, 2014	600,000	\$ 0.40	600,000	

(c) Share-based Compensation

During the three and nine months ended March 31, 2014 no stock options were granted and no existing options were exercised. Pursuant to the granting and vesting of options issued, total share based compensation recognized in the statement of operations during the three and nine months ended March 31, 2014 was \$557 (March 31, 2013 – \$32,080). All options are recorded at fair value determined using the Black-Scholes option pricing model.

The following assumptions were used for the valuation of stock options:

	March 31, 2014	March 31, 2013
Risk free interest rate	1.77%	1.77%
Expected life - years	3	3
Annualised volatility	99.50%	99.50%
Dividend rate	0%	0%

Papuan Precious Metals Corp.

Notes to the Condensed Interim Consolidated Financial Statements
For the Three and Nine Months Ended March 31, 2014
(Unaudited - Expressed in Canadian Dollars)

9. Supplemental Disclosure with Respect to Cash Flows

Cash and cash equivalents consist of:

	March 31, 2014	March 31, 2013
Cash	\$ 17,777	\$ 5,959
Redeemable term deposits	526,667	852,424
	\$ 544,444	\$ 858,383

There were no cash payments for interest or income taxes during the nine months ended March 31, 2014 and March 31, 2013.

Non-cash transactions for the nine months ended March 31, 2014 included:

- Recognizing share-based compensation expense of \$557;

Non-cash transactions for the nine months ended March 31, 2013 included:

- Incurring exploration and evaluation assets related expenditures of \$3,850 through accounts payable and accrued liabilities;
- Recognizing share-based compensation expense of \$32,080;
- Forfeiture of previously capitalized share-based compensation in Exploration and Evaluation assets of \$11,110.

10. Related Party Transactions

The comprehensive costs for key management personnel for the nine months ended March 31, 2014 and 2013 are as follows:

	March 31, 2014	March 31, 2013
Wages and consulting fees paid or payable to key management personnel	\$ 225,000	\$ 249,000
Share-based payments for options granted to key management personnel	-	26,781
	\$ 225,000	\$ 275,781

Share-based payments represent the fair value calculations of options in accordance with IFRS-2 Share-based Payments granted to key management personnel.

Included in accounts payable and accrued liabilities at March 31, 2014 is \$ 126,000 (March 31, 2013 - \$ 30,000) owing to officers, directors and related companies for consulting fees, rent and general and administrative costs. These transactions were in the normal course of operations and were measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

Papuan Precious Metals Corp.

For the Three and Nine Months Ended March 31, 2014
(Unaudited - Expressed in Canadian Dollars)

11. Segmented Information

The Company operates under one business segment being the exploration of mineral property interests operating in two different geographical locations; Canada and Papua New Guinea. The loss from operations for the periods ended March 31, 2014 and 2013 are considered to be solely related to this segment.

Total assets by geographic area are as follows:

	March 31, 2014		March 31, 2013	
	Canada	Papua New Guinea	Canada	Papua New Guinea
Property and equipment	\$ -	\$ 19,787	\$ 2,891	\$ 47,003
Exploration and evaluation assets	-	4,859,221	-	4,818,615
	\$ -	\$ 4,879,008	\$ 2,891	\$ 4,865,619

12. Capital Management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the development and exploration of its exploration and evaluation assets and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk.

The Company is dependent on external financing to fund its activities. The capital structure of the Company currently consists of common shares and stock options. Changes in the equity accounts of the Company are disclosed in the Statement of Shareholders' Equity. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may issue new shares, acquire or dispose of assets or adjust the amount of cash, cash equivalents, and short-term investments. Any issuance of common shares requires approval of the Board of Directors.

In order to facilitate the management of its capital requirements, the Company prepares annual expenditure budgets, which are approved by the Board of Directors and updated as necessary depending on various factors, including capital deployment and general market and industry conditions.

The Company anticipates pursuing potential farm-out and joint venture option agreements and continuing to access equity markets to fund the sustained exploration of its mineral properties and to ensure the future growth of the business.

13. Financial Instruments and Risk Management

IFRS 7 - *Financial Instruments: Disclosures* establishes a fair value hierarchy that reflects the significance of the inputs used in making measurements. The fair value hierarchy has the following levels:

Level 1: quoted (unadjusted) prices in active markets for identical assets and liabilities

Level 2: inputs other than quoted direct prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices): and

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

The Company's financial instruments consist of cash and cash equivalents, short-term investments, amounts receivable and accounts payable and accrued liabilities. For cash and cash equivalents, amounts receivable and payable and accrued liabilities, carrying value is considered to be a reasonable approximation of fair value due to the short-term nature of these instruments.

Papuan Precious Metals Corp.

Notes to the Condensed Interim Consolidated Financial Statements
For the Three and Nine Months Ended March 31, 2014
(Unaudited - Expressed in Canadian Dollars)

Cash and cash equivalents and short-term investments are designated as held for trading and therefore carried at fair value, with the unrealized gain or loss recorded on the statement of comprehensive loss.

The Company's financial instruments are exposed to a number of financial and market risks, including credit, liquidity and foreign exchange risks. The Company does not currently have in place any active hedging or derivative trading policies to manage these risks since the Company's management does not believe that the current size, scale and pattern of its operations would warrant such hedging activities.

(a) Credit Risk

Credit Risk is the risk that a counterparty to a financial instrument will not discharge its obligations, resulting in a financial loss to the Company. The Company has procedures in place to minimize its exposure to Credit Risk. Company management evaluates credit risk on an ongoing basis including counterparty credit rating and activities related to trade and other receivables and other counterparty concentrations as measured by amount and percentage.

The primary sources of credit risk for the Company arise from:

1. Cash and Cash Equivalents;
2. Short-term Investments; and
3. Amounts Receivable.

The Company has not had any credit losses in the past, nor does it expect to have any credit losses in the future. At March 31, 2014 and 2013, the Company has no financial assets that are past due or impaired due to credit risk defaults.

The Company's maximum exposure to credit risk is minimal as cash and cash equivalents are deposited with reputable financial institutions, the balances of which are as follows:

	Class Level	March 31, 2014	March 31, 2013
Cash and cash equivalents	1	\$ 544,444	\$ 858,383
Amounts receivable and prepaids	3	34,081	117,342
		\$ 578,525	\$ 975,725

(b) Liquidity Risk

Liquidity Risk is the risk that the Company will not be able to meet its obligations with respect to financial liabilities as they fall due. The Company's financial liabilities are comprised of accounts payable and accrued liabilities. The Company frequently assesses its liquidity position by reviewing the timing of amounts due and the Company's current cash flow position to meet its obligations. The Company manages its Liquidity Risk by maintaining sufficient cash and cash equivalents and short-term investment balances to meet its anticipated operational needs.

Papuan Precious Metals Corp.

Notes to the Condensed Interim Consolidated Financial Statements
For the Three and Nine Months Ended March 31, 2014
(Unaudited - Expressed in Canadian Dollars)

The Company's financial liabilities, consisting of accounts payable and accrued liabilities, arose as a result of expenditures directly related to exploration of its Exploration and Evaluation assets and other corporate expenses. Payment terms on these liabilities are typically 30 to 60 days from receipt of invoice and generally do not bear interest. The following table summarizes the remaining contractual maturities of the Company's financial liabilities:

Due within the year	March 31, 2014	March 31, 2013
Accounts payable and accrued liabilities	\$ 241,129	\$ 144,413

(c) Market Risk

Market Risk is potential that the fair value for assets will fluctuate due to changes in market conditions on items classified as held-for-trading, available-for-sale or future cash flows from assets or liabilities considered to be held-to-maturity, other financial liabilities and loans or receivables of a financial instrument. The Company evaluates market risk on an ongoing basis and has established policies and procedures for mitigating its exposure to foreign exchange fluctuations. The Company is not exposed to interest rate risk as it does not hold debt balances and is not generally charged interest on accounts payable balances.

(d) Foreign Exchange Risk

The Company operates on an international basis therefore foreign exchange risk exposures arise from transactions denominated in foreign currencies. Although the functional currency of the Company is Canadian dollars ("CAD"), the Company has simultaneously conducted business in US dollars ("USD"), Papua New Guinea Kina ("PGK") and Australian dollars ("AUD"). Derivative instruments are currently not used to reduce exposure to fluctuations in foreign currency exchange rates.

Changes in the value of USD, AUD and PGK against the CAD affect the costs of operations and resultant capital expenditures. The Company primarily maintains its cash balances in CAD and exchanges currency on an as needed basis thereby reducing the exchange risk on cash balances.

The Company is exposed to currency risk through the following Canadian dollar equivalent of financial assets and liabilities denominated in currencies other than CAD:

	March 31, 2014	March 31, 2013
	PGK	PGK
Cash and cash equivalents	\$ 99	\$ 6,178
Accounts payable and accrued liabilities	(3,865)	(3,850)
	\$ (3,766)	\$ 2,328

Based on the above net exposures at March 31, 2014, a 10% change for the PGK against the Canadian dollar would result in a \$377 (March 31, 2013 - \$233) change in the Company's net loss.

14. Subsequent Events

On April 7, 2014, the Company announced that it is currently reviewing a number of agricultural projects as it seeks to diversify its prospects due to the current state of the mineral resource sector.

On April 14, 2014, the Company announced that it has granted incentive stock options to Directors, Officers, employees and consultants entitling them to purchase up to 5,800,000 company shares at \$0.05 per share. The grant is subject to the approval of the TSX Venture Exchange.
